

BATH HELPER

Product Summary

The SISUS Bath Helper is another user-friendly bathroom transfer system in the Bathroom Freedom Series. As part of the technology movement of making bathrooms barrier free without remodeling, the SISUS Bath Helper is the most durable and easy to use bathroom transfer system with wheelchair/commode/bath chair functions. The 360 degree swivel seat increases accessibility and enables the chair to face the water source in any bath configuration. The SISUS Bath Helper also rolls over the toilet, completely eliminating the need for transfers in the bathroom.

Features and Benefits

Track System

- Allows the user access to a bath safely while seated.
- Universally fits both bath tubs and larger shower stalls.
- Light weight track system can be easily stored when not in use.
- Detachable bridge and transfer track allow caregiver free access to bath or larger shower stall and the ability to close the curtain for privacy and water control.

360 Degree Swivel Seat

- Increases accessibility.
- Allows user to face water source in any bath configuration.
- Helps caregiver assist with bathing from outside the bath.

Commode

- The SISUS Bath Helper rolls directly over most standard toilets eliminating additional transfers for toilets.

Wheelchair

- Comes standard with 5" braked castor wheels.
- Smooth rolling over carpet and doorway thresholds.
- Standard height and fold up arms for easy transfers from/to the bed.
- Standard width to fit through door frames.

Construction/Transport

- Powder coated T6063 aluminum, Teflon plastic, and stainless steel.
- Rust free, highly durable, strong and lightweight.
- Snap together parts for easy assembly and fast dismantle.
- Transportable in 2 soft bags.
